Re: Why **FastFlow@within** is really important

[A really great discovery](#)

[Framing the breakthrough](#)

[Claims in context](#)

Do you subscribe to intuition? Over the past year, I have intuited **FastFlow@** is for this very time. An article today in the Daily Mail—[The Spectre of 1932: How a loss of faith in politicians and democracy could make 2012 the most frightening year in living memory](#) was sobering.

Earlier this month I learned the **WHY** our discovery is great. Intellectual Property is more valuable than gold! [Matthew 7:6] "Do not give what is holy to dogs, and do not throw your pearls before swine, or they will trample them under their feet, and turn and tear you to pieces".

A friend was one of nine women who visited the Manhattan Federal Reserve Bank to pray several days before the Bank released \$ 2 trillion into the international credit market. The Bank's action in 2008 arrested a global monetary collapse. When I asked the women about LTG, I was told that while they didn't know anything about LatchTool—they knew that God was putting wealth in Godly hands for the troubled times ahead.

I spent a lot of time reflecting on [How I ended up in Colorado ...](#) It isn't a coincidence that I am here developing LTG—it is Providence.

Trouble is now at our doorstep—I pray for goodness and mercy. Psalm 46 is our strength.

John 3:16-18 "For **God so loved the world**, that He gave His only begotten Son, that whoever believes in Him should not perish but have eternal life. For God did not send his Son into the world to condemn the world, but to save the world through him. Whoever believes in him is not condemned, but whoever does not believe stands condemned already because they have not believed in the name of God's one and only Son."

***...2012 is going to be one exciting year!***

**Happy New Year**

Much love,

**LatchTool Group**
